Half a Boat Still Floats

Then pick an interior layout...Tiller, FLX, CC, CCR, or DX

Tiller	FLX	CC	CCR	DX
Tiller Steer	Center Console	Center Console	Center Console	Center Console
Modular Front Deck	Modular Front Deck	Modular Front Deck	Front Deck & Ring Cap	Front Deck & Full Liner
	XL Modular Rear Deck	Modular Rear Deck	Rear Deck & Ring Cap	Rear Deck & Full Liner
Bench Seating	Rear Deck Seating	Helm Seating	Helm Seating	Helm Seating

We build with woven and stranded fiberglass and high density urethane foam for an all composite "No Wood" construction.

Better performance, more standard features, Sundance is the Best Skiff at the Best Price and the only skiff backed with a 10 Year Transferable Warranty.

DX Series

NXS Console w/ Front Seat & Rod Racks

Our premier line of skiffs, the Sundance DX Series includes models ranging between 18' and 22' satisfying every need and budget. With a one-piece top liner, stylish lines, and molded non-skid surface, every DX will turn heads with their high-end modern look.

Inside the DX, there's two cushioned seats with storage below, an overboard draining anchor locker, pedestal seat mount, and prewired trolling motor port. Under the forward console seat, you can choose between an insulated or aerated well and when it comes time the for storage, just fold down the handrail, quick release windshield quickly and easily.

Behind the console there's two full-sized, folding jump seats offering passengers improved comfort and safety. Fold the seats down, then cast from a large deck with a large circular aerated bait well and convenient clear-view lid.

For the family, there's eight cup holders, glove box with charging port, and stylish blue LED courtesy lights. For the angler, the DX offers stainless steel gunwale rod holders, console rod racks, and an optionally plumbed port side fish box that converts to an oversized live release well. Finishing the DX, we've added stainless steel thru hulls, flush mounted cleats, and rigid high-impact rub rail.

Need more power and better fuel economy? Every 20' and 22' DX HPX include three additional inches of freeboard and a five-inch tunnel hull which smooths the ride, conserves fuel and keeps you drier.

Simply put, we build the best shallow water skiffs on the market today. Committed to refining our designs and consistently innovating to bring more value, we're the only brand of skiff confident enough to give offer a ten-year limited hull warranty.

CCR Series

Our most popular skiff, the CCR series includes an integrated one-piece, molded top with extra wide gunwales that connect the yacht style front and rear casting platforms. Based on our B hull and SRV bow, you can expect a dry, smooth, and comfortable ride suited for fish ing or simple cruises with friends or family.

Every CCR boat includes stainless steel rub inserts adding superior protection against chafing and blemishes along with ample space under the coaming rail offering plenty of horizontal rod storage. Below the floor, CCR's are built with a rigging track that makes adding additional equipment or service quick and easy.

Other notable standard features include stainless steel flush mount cleats, aerated baitwell, additional seating and your choice of factory rigged engine. Additionally, all gauges and controls are installed to the engine manufacturers specifications for added warranty protection.

Put plainly, we build the best shallow water skiffs on the market today because we're committed to the refinement of our designs through consistent innovation. With more features and more value, we're the only brand of skiff confident enough to give you a ten-year limited hull warranty.

Sundance Boats deserve great power.

Sundance Boats is proud to recommend Mercury® FourStroke Outboard power. When you rig your boat with an outboard from Mercury Marine®, you're not just getting the best power available – you're getting an experienced team of boating enthusiasts dedicated to taking care of you. No matter how you want to use your boat – fishing, skiing, cruising or just relaxing on a sunny Saturday afternoon – everyone at Mercury wants to ensure that each minute you spend on the water is unforgettable.

150HP FourStroke

- The lightest and smallest 150hp on the market
- Vibration and sound management systems provide smooth and quiet operation.
- Highest displacement in the 150hp class delivers TwoStroke torque with FourStroke efficiency

90-115HP FourStroke

- Turn Key reliability with ease on your pocketbook
- Robust gearcase design maximizes your boating experience
- Supplies plenty of torque for optimal performance

40-60HP FourStroke

- Gearcase provides better performance and efficiency
- Propellers provide more power and acceleration
- Low gear ratio provides superior maneuverability

25HP FourStroke

- The lightest engine model in its class
- Industry-leading, battery-free EFI provides turn-key starting, dependability and efficiency
- High-output alternator offers more charging power than the competition

MERCURY

Enertia® Propeller

- Three-blade stainless steel propeller
- Improves acceleration and top speed
- Perfect for 150HP and above

Spitfire Propeller

- Four-blade aluminum propeller
- Tenacious grip in turns
- Perfect for 25HP – 115HP
